

May 21, 2015

Report on the Nevada Indian Education's Indian Education Advisory Committee (IEAC):

The IEAC conducted a meeting on May 4, 2015. A new appointment was made to the committee, the new education director for the Washoe Tribe. A presentation on a STEM (Science, Technology, Engineering, and Math) activity was given by Christopher Hicks of UNLV. The IEAC's Strategic Planning Committee will be meeting on June 9. We are also still looking towards hosting the National Indian Education Association's national convention in 2016. Finally, reports were given from each of the members of the IEAC. Our attendance is waning which is typical of the end of the school year. The committee does not meet over the summer and will reconvene in September 2015.

Respectfully Submitted,

Lynn Manning John, Chair
